

FOR IMMEDIATE RELEASE

Warwick Resource Group Receives 2013 Award of Agency Excellence

For representing the highest standards of the insurance industry.

November 20, 2013 (Bend, OR) – Warwick Resource Group, a full service retail insurance agency founded in 1864, was recently awarded the 2013 Award of Agency Excellence by Agency Revolution, an advisory and technology company serving the insurance industry. The award recognizes “excellence in representing the highest standards of the insurance industry.”

Michael Jans, CEO of Agency Revolution said, “Rich and Keith have represented the best this industry has to offer for many years. They’ve demonstrated their commitment and willingness to serve this industry through their participation in numerous industry boards, commissions and panels; Rich as the immediate past president of Professional Insurance Agents of NY and Keith who sits on the ACORD Board of Directors.

Keith Savino, Michael Jans, Richard Savino

Rich and Keith have consistently pushed the industry to be its best. But it was their leadership, and their agency’s performance during and after Superstorm Sandy, that made us want to shine a light on them. That storm demanded that the insurance industry – at all levels – stand up and show what it’s made of. At the retail level, Rich and Keith Savino showed us why every agent can be proud to be in the insurance industry.”

This award, the most coveted recognition given by Agency Revolution, was announced at the company’s recent Annual Conference in Chicago.

Rich Savino said, “My brother and I have always placed our industry engagement as a high priority. There were thousands of agents who worked tirelessly to protect people, help them through the storm and help them put their lives back together after the damage was done. This award reminds us that we can all be honored to serve our communities through this industry.”

Keith added, “Rich is right. We just did what we had to do, like so many other agents. Our substantial investment in disaster recovery, cloud agency automation, VOIP and CRM solutions for our own agency meant being available continuously every day 24/7 for our clients and neighbors. We could help others when others needed help. Disasters, catastrophes and accidents strike individuals, businesses and families every day in America. Our industry responded well, and we really accept this award on behalf of all of our industry peers, regardless of where they serve.”
